

PRODUCT RECOMMENDATIONS

Please note that these are recommendations and not meant to go above the installer recommendations. Installers should be professionals in their field and look first for their knowledge on each unique project.

All Manufacturer instructions should be followed exactly. Savannah Stone Source takes no responsibility for any installation practices or products used with and or after the installation.

No acid is to ever be used on any of our products.

RUST CLEANER FOR STONE – GREAT PRODUCT FOR RUST BLOOMING AND STAINING STONE*

These are all good choices, and each individual need is unique. Porcelain pavers do not need to be sealed. If you are selling Sandstone and Limestone, please read all the instructions and use a professional if needed. Only sealers for Natural Stone should be used and applied properly with Manufacturers instructions. Savannah Stone Source accepts no responsibility for Sealers used or product recommendations, consult your local dealer for best practices and always follow all instructions and try a test area first.
